# RELEASE NOTES FOR VERSION 8.0.65.0

## ETIMECLOCK9

### #409 – View Incomplete punches

Added to the "View Timesheet" section a checkbox to include the Incomplete Punches in the timesheet visualization. This option is applied also on the "Print report".

TreeRing Workforce Solutions English Spanish

Pay Period  
11/19/2023 - 12/02/2023

Print Timesheet  View incomplete Punches/Exeptions

Punch Type	Date In	Time In	Date Out	Time Out	Lunch	Total Notes	Departments
B	11/20/2023	05:32	11/20/2023	13:32	0.000	8.000	002
I	11/21/2023	08:33			0.000	0.000	002
B	11/21/2023	13:31	11/21/2023	21:31	0.000	8.000	002

Approve

Total Week 1. 11/19-11/25 Week 2. 11/26-12/2

Total Paid Hours: 16.00 Unpaid: 0.00 Dollars: 0.00  
Worked: 16.00  
Not Worked: 0.00

### #409 – Added "Print Timesheet" option

Added button to print the timesheet from "view timesheet" page.

The screenshot shows the TreeRing Timesheet interface. At the top, there is a blue header with the TreeRing logo, language options (English, Spanish), and a notification bell with a red '1'. Below the header, the title is "Timescard for Period: 11/19/2023-12/02/2023". A dropdown menu shows the "Pay Period" as "11/19/2023 - 12/02/2023".

Below the pay period, there is a green button labeled "Print Timesheet" and a checkbox labeled "View incomplete Punches/Exeptions" which is checked. Below this is a table with the following columns: Punch Type, Date In, Time In, Date Out, Time Out, Lunch, Total Notes, and Departments.

Punch Type	Date In	Time In	Date Out	Time Out	Lunch	Total Notes	Departments
B	11/20/2023	05:32	11/20/2023	13:32	0.000	8.000	002
I	11/21/2023	08:33			0.000	0.000	002
B	11/21/2023	13:31	11/21/2023	21:31	0.000	8.000	002

Below the table is a blue "Approve" button. At the bottom, there is a summary section with tabs for "Total", "Week 1. 11/19-11/25", and "Week 2. 11/26-12/2". The summary shows: Total Paid Hours: 16.00, Unpaid: 0.00, Dollars: 0.00, Worked: 16.00, and Not Worked: 0.00.

### DASHBOARD WIDGETS

#### #414 – 'Who is In' widget - option to view all employees regardless of the role

Many companies requested the possibility of viewing all the employees in the "Who is in" widget. The reason for that is that in case of an emergency the users can see all people that was in the workplace.

In order to enable this functionality the company flag "DASHBOARD|WHO\_IS\_IN\_VIEW\_ALL" must be set to "1". When it is enabled, the widget will display by default only the employees assigned to the user, but will give the option to "View all employees"

Who Is In 10 / 11

View All Employees

Name	Start Time	Picture	Punch Location
Brontë,Charlotte	01/09/24 09:00		
Bunter,Billy	01/09/24 08:00		
CALLAHAN,KRISTIE	01/09/24 09:00		
CARR,ELIZABETH A.	01/09/24 08:00

Items per page: 10 1 - 10 of 11

**#415 – ‘Who is In’ widget - Added picture and location if available in the punch**

The widget "Who is In" widget displays the picture of the employee and the location where the punch was made (as long as that information is available).

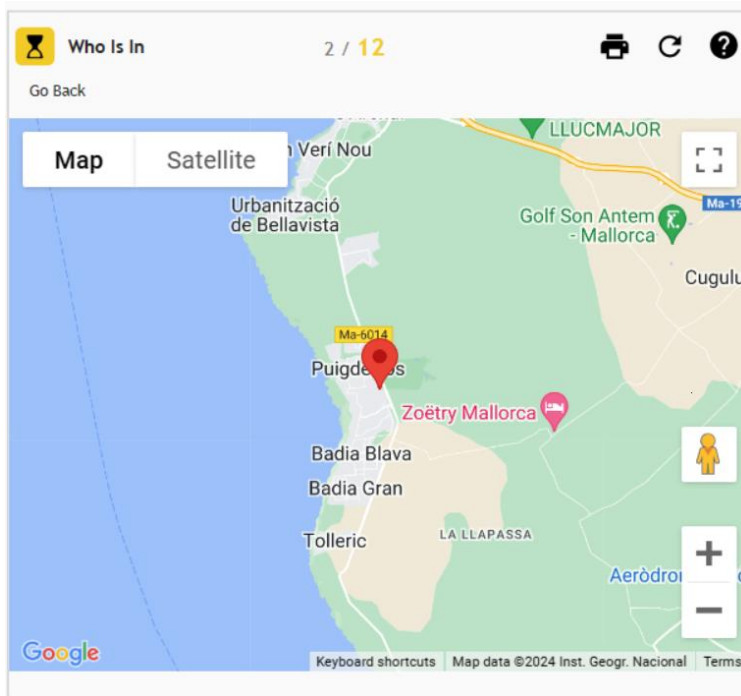

Clicking on the picture icon will display the captured picture of the employee and clicking on the location will show it in google maps, then user must click in "go back" to return to the widget list.

Items per page: 10 11 - 12 of 12

## REPORTS

### #426 - Add checkbox to show employee by OtherId.

Added a new checkbox on the Detailed Time Sheet report to show it by Other ID instead of Card ID. (Fig 1)

(Fig 1 – Detailed Time Sheet - Show employees by Other ID)

#### ***#405 - Reports to Excel then try and Sum a line gives error***

Export to excel functionality will set the number fields as "number" in the generated excel file and apply the cell format instead of exporting numbers as formatted text. This modification allows the use of formulas by the user on the generated excel files without having to re-format the numbers in the file.

## **SECURITY**

#### ***#397 – Two-Factor Authentication***

This version implements the possibility to enable the two-factor authentication using google authenticator. The use of two-factor authentication will be enabled on demand from the current version and on.

## **GENERAL**

#### ***#386 - Default profile's fields are not cleared out the fields after saving***

When you were working with a default profile and clicked on save and then you opened another default profile, this had some field values that belonged to the previous profile you saved so if you saved it again, it was been replaced the fields with the incorrect data.

#### ***#427 - Dynamic schedules - Enable over midnights shifts***

Modified the shift definitions in dynamic schedules to allow the creation of shifts that go over midnight into the next day.

#### ***#417 - Add Card ID and Other ID in the dropdown of "Add new PTO Request"***

The dropdown only displayed the employees' names, now it displays also card ID / other ID in the same way than Time management to allow searching by those values in the dropdown.

#### ***#425 – Display clock device name instead of clock serial number in the Start Location and End Location***

Added new setting to specify if the company saves the clock serial number or the clock description. In order to enable this feature the flag "TT|CHANGE\_CLOCK\_SERIAL\_BY\_CLOCK\_DESCRIPTION\_IN\_TT" must be set to 1"

#### ***#357 Bug – Special characters cause errors in transaction notes AND Company names***

Fixed error when trying to redistribute transactions that contained notes with the "&" character.

## TIMECLOCK SERVICE

### **#408 – Enforce schedule functionality**

The functionality to enforce employees' schedules has been added to the clocks. Options to specify the "Grace In/Out" time was added on the clock details.
